INTRODUCTION

Technical and Vocational Education and Training (TVET) in polytechnics has started since the establishment of the first polytechnic, Ungku Omar Polytechnic in 1969. To date, 36 polytechnics and 106 community colleges have been established throughout the country in line with the rapid development of the country's industrial sector that needs manpower. Polytechnics and community colleges play an important role in providing access to quality higher education and recognized TVET-based study programmes, producing holistic graduates with entrepreneurial and balanced characteristics, while making full use of smart partnerships with various stakeholders. Graduates from the TVET stream at polytechnics and community colleges have been in high demand from industries at the job market. Study programmes offered at polytechnics and community colleges include engineering, technology, commerce and services at certificate, diploma, and bachelor's degree levels. Polytechnic & community college graduates are born to meet the needs of the workforce in addition to supporting the development of knowledgeable and skilled human capital. This is in line with the role of polytechnics and community colleges which are also among the largest providers of TVET workforce in the country. In the formation of the Malaysia Madani concept, polytechnics take the initiative to move as a catalyst, especially in facing three out of the six important pillars, which are; sustainability, well-being and creativity through TVET empowerment. Polytechnics always emphasize competitive and sustainable aspects through fostering a culture that encourages resilience and excellence in addition to forming a sustainable and up-to-date learning ecosystem and landscape. This effort is important to ensure that TVET education in this country continues to be competitive. This 2023 Information Book aims to provide information and reference to POLYCC citizens and stakeholders in regards to the annual statistics of Polytechnics and Community Colleges of Malaysia. This book also includes several sections, namely, Departments, Institutions, Students, Programmes, Staff, Industry and Research and Innovation.
